Overview

The Bancroft Generating Station Water Management Plan was amended June 29th, 2018 by the Ministry of Natural Resources and Forestry (MNRF), under the authority of Section 23.1 (6) of the *Lakes and Rivers Improvement Act*. The amendment was undertaken in order to align the BGSWMP with the 2016 Maintaining Water Management Plans Technical Bulletin.

The implementation reports must be submitted by the proponent every 5 years. This report covers the time period of January 1, 2021 to December 31, 2025.

The implementation report should include the four components:

- Summary of all amendment requests
- Status of the Standing Advisory Committee (if applicable)
- Results of effectiveness monitoring (if applicable)
- Status and results of any data or information collected outlined in the WMP's data collection program (if applicable)

In June of 2012, the former Bancroft Light and Power Company (2000) Ltd. facility was purchased by Bracebridge Generation Ltd.
